It's been a year since Christian Web Resources was launched and we're still here providing tips, tricks, guidance, examples, fellowship and encouragement for church and ministry web masters using XOOPS and ImpressCMS. Admittedly, there hasn't been a ton of activity here, but there are things I am proud of and urge me to continue. For example, shortly after launching, Christian Web Resources hit the 1st page of Google search results for '***xoops resources***'. Now, we are in the #1 position at Google and #2 for '***impresscms resources***'!Â We're also doing pretty good for XOOPS or ImpressCMS + 'church sites'.

We've also moved servers in the past year, so performance is much better and your experience on the site should be much improved. There will be much more content added in the year ahead, along with some new features - thanks to ImpressCMS. Thanks to everyone who has stopped by over the past year and blessings on your upcoming web activities and ministries.
