The website for University Presbyterian Church of Charlotte, NC has gotten a makeover and PageProgressive, the web developers behind the site, has announced its new launch. The site employs some slideshows on the homepage and in various portions of the site. Along with this, they are reaching out through social media sites. including Facebook. Sermons are posted each week, many of them include videos of the sermon from the service, so you can get a sense of what their worship services are like.

PageProgressive has also invested in making this site mobile-accessible, offering a version of the site tailored to mobile viewing. If you visit the site on your mobile device, you will be directed to the mobile version, but you can also view the full site by following the link in the mobile version. **How the site is built:** CMS: ImpressCMS This site uses some modules customized by PageProgressive, the web company behind this site. info - based on Mastop Publish news - based on News by Instant Zero contact - based on Liaise sitemap and a completely custom module for displaying Google Calendar. In addition, htaccess file is used to allow for some 'pretty' URIs. To learn more about the site and see it in action visit [University Presbyterian Church of Chapel Hill](http://www.universitypresbyterianchurch.org)
